

Lencho Mengistu

Full-Stack Developer & AI Engineer

Lenchomengistu100@gmail.com · github.com/braveram · Telegram: @plxor · Addis Ababa, Ethiopia

SUMMARY

Self-taught full-stack developer and AI engineer with 3+ years of hands-on experience building production web apps, LLM-powered tools, and workflow automations. Specializes in integrating **Claude, OpenAI, and Gemini** into **Next.js** and Python stacks, with a focus on clean architecture, developer experience, and shipping. Comfortable across the stack — from TypeScript UI to Python services to Rust systems work.

EXPERIENCE

Phoenix Gaming — Full-Stack Developer Feb 2026 — Present · Remote

- Build and maintain full-stack features across web and backend services.
- Integrate AI-driven functionality into product surfaces.
- Ship end-to-end with TypeScript, Next.js, and Node-based services.

EaglePoint AI — Freelance Full-Stack Engineer 2025 · Hybrid, Addis Ababa

- Contributed to supervised fine-tuning (SFT) datasets for code-generation models.
- Wrote and reviewed high-signal training examples across multiple languages.
- Partnered with ML engineers to raise model output quality.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Rust

Frontend: Next.js, React, Tailwind CSS, shadcn/ui

Backend: Node.js, Hono, Express, NestJS, Django, Flask, Bun

AI & LLMs: Claude, OpenAI, Gemini, AI SDK, vector embeddings, RAG

Automation: n8n, Telegram Bot API, webhooks, scheduled workflows

Data & Infra: PostgreSQL, Docker, Linux, Git

Deploy: Vercel, Digital Ocean, Koyeb, Railway, Netlify, Heroku

SELECTED PROJECTS

Pixn — AI-Powered Image Search

Natural-language image search with AI-driven retrieval and ranking.

Pullora — AI Assignment Assistant

Conversational AI that guides students through assignments with structured explanations.

Pupilify — Natural-Language Document Search

Semantic search across educational documents using embeddings-based retrieval.

EDUCATION

Addis Ababa University (AAU) Addis Ababa, Ethiopia · Current

Self-Taught Software Development 2022 — Present

Continuous hands-on learning across full-stack development, AI integration, and scalable architecture.
